Note #5: The contractor shall comply with Resource Conservation and Recovery Act (RCRA) affirmative procurement (or 'buying recycled') requirements by giving preference in their purchasing process to products and practices that promote recycling and other environmentally friendly practices. The contractor is also responsible for insuring that all sub-contractors comply with Affirmative Procurement (AP) requirements. Except as specifically waived in writing, for reasons of price, performance or availability, any products in the attached EPA guideline items list provided by the contractor as part of the performance of this contract must meet the minimum percentage levels of recovered materials as specified to these standard contract terms and conditions. Please refer to the attached EPA list of designated recovered materials content products (attached). On completion of work, contractor shall submit to the COR or Contract Specialist a completed "affirmative procurement reporting form" (attached) for actions taken under that specific order.

The contractor shall submit the attached "Contractor Request for Waiver for Non-EPA Comprehensive Guideline Items" (attached) as written documentation to support the decision not to acquire items meeting the minimum content levels, based on one of the three justifications below:

- b. The product is not available within a reasonable period of time.
- c. The product does not meet the performance standards in applicable specifications or fails to meet reasonable performance standards of the agency.

See FAR clauses 52.223-4 and 52.223-9 for further guidance.

Note #6: OPTION YEARS: Contractor shall be notified at least sixty (60) calendar days prior to expiration date of the contract if the Government intends to exercise it's option to extend the contract for an additional year. In the event the Government fails to notify the contractor within the said sixty (60) calendar days, but at a time less than sixty (60) calendar days prior to the expiration date does notify the contractor that it intends to exercise the option to extend the contract for an additional year, the contractor will have the right to waive the sixty (60) calendar days notice requirement and to perform under the option contract.

**MANDATORY NOTE: CCR REGISTRATION.** Please review the accuracy of your Central Contractor Registration (CCR) information. The Department of Defense began using a new reporting system in fiscal year 2005. The system will automatically pull information from the CCR. It is imperative that the information for your company is correctly recorded. Awarding of a contract to a particular company could be impacted by the information found at the CCR.

The Office of the Assistant Secretary of the Army (Manpower & Reserve Affairs) operates and maintains a secure Army data collection site where the contractor will report ALL contractor manpower (including subcontractor manpower) required for performance of this contract. The contractor is required to completely fill in all the information in the format using the following web address: <https://contractormanpower.army.pentagon.mil>. The required information includes: (1) Contracting Office, Contracting Officer, Contracting Officer's Technical Representative; (2) Contract number including task and delivery order number; (3) Beginning and ending dates

covered by reporting period; (4) Contractor name, address, phone number, e-mail address, identity of contractor employee entering data; (5) Estimated direct labor hours (including sub-contractors); (6) Estimated direct labor dollars paid this reporting period (including sub-contractors); (7) Total payments (including sub-contractors); (8) Predominant Federal Service Code (FSC) reflecting services provided by contractor (and separate predominant FSC for each sub-contractor if different); (9) Estimated data collection cost; (10) Organizational title associated with the Unit Identification Code (UIC) for the Army Requiring Activity (the Army Requiring Activity is responsible for providing the contractor with its UIC for the purposes of reporting this information); (11) Locations where contractor and sub-contractors perform the work (specified by zip code in the United States and nearest city, country, when in an overseas location, using standardized nomenclature provided on website); (12) Presence of deployment or contingency contract language; and (13) Number of contractor and sub-contractor employees deployed in theater this report period (by country). As part of its submission, the contractor will also provide the estimated total cost (if any) incurred to comply with this reporting requirement. Reporting period will be the period of performance not to exceed 12 months ending September 30 of each government fiscal year and must be reported by 31 October of each calendar year. Contractors may use a direct XML data transfer to the database server or fill in the fields on the website. The XML direct transfer is a format for transferring files from a contractor's systems to the secure web site without the need for separate data entries for each requirement data element at the web site. The specific formats for the XML direct transfer may be downloaded from the web site.

Provision 12: Prospective contractors may complete electronic annual representations and certifications at [HTTP://ORCA.BPN.GOV](http://ORCA.BPN.GOV) in conjunction with required registration in the central contractor registration (CCR) database (see FAR 4.1102). Prospective contractors shall update the representations and certifications submitted to ORCA as necessary, but at least annually, to ensure they are kept current, accurate, and complete. The representations and certifications are effective until one year from date of submission or update to ORCA.

Safety Practices and Guidelines. The Contractor shall conform to all federal OSHA standards applicable to the work performed and all safety practices and guidelines contained within this Statement of Work. Contractor shall strictly adhere to the contract clause entitled "Accident Prevention", Army Material Command (AMC) Regulation (R) 385-100, Safety and Occupational Health Regulation ANADR 385-1, Engineering Manual (EM) 385-1-1, 29 Code of Federal Regulations (CFR) 1926/1910, other related Department of Transportation (DOT) Regulations (49 CFR), and all local policies.

If a contractor employee is observed performing an activity in a manner inconsistent with any of the above cited regulations or is engaged in any activity that is dangerous to life, limb, or government property, the ANAD Safety Representative shall have the authority to notify the employee and/or the contractor's on-site supervisor of the hazardous activity and require correction of the hazardous activity. This authority does not preclude the Safety Representative from notifying the Contracting Officer's Representative of the hazardous condition or safety violation in appropriate situations.

If necessary, the ANAD Safety Representative shall have the authority on behalf of the Contracting Officer to require the contractor and/or its employee to stop the hazardous activity until corrective action is taken to eliminate a hazardous condition or safety violation. Said action shall not be considered to be the basis of a claim and shall be at no cost to the Government.

Contractor will notify ANAD Safety Office immediately of Reports of Inspections and/or Notices of Violation or other enforcement actions (including warning letters) received from by local, State, and Federal Regulators in which the violation is attributed to the action of the contractor or its subcontractors while working or providing services on ANAD's installation. Contractor will provide ANAD with a copy of the Inspection Report, Notice of Violation or other enforcement action, and all supporting documentation.

#### 52.000-4408 INSTALLATION SECURITY

The Anniston Army Depot (ANAD) is currently operating on a heightened state of security awareness and enforcement due to possible terrorist threats. Due to this heightened state of security, it is imperative that no unauthorized materials of any type be brought onto or left unattended on the installation. For this reason the Contractor must have a process in place to receive and store materials and have visibility of the location of those materials at all times while on ANAD. This includes construction materials, equipment, and miscellaneous items. This visibility/accountability of materials applies to the Contractor, its subcontractors, and its material suppliers.

Further, all Contractor, subcontractor, and material supplier employees are prohibited from bringing personal belongings of any nature onto the installation if such items are to be left unattended at any time.

The Contractor is further required to have a plan of action for implementing these procedures and must submit it to the Contracting Officer upon request. This plan of action must include a provision for informing all employees and subcontractors of these procedures. The plan of action must also address monitoring and procedures the Contractor has in place to ensure compliance with this contractual provision.

Should the Contractor fail to comply with this mandatory contractual provision, the Contractor may be held responsible for all direct and indirect cost incurred by the Government in identifying, securing, segregating, removing, and otherwise properly disposing of improper or abandoned materials/equipment.

#### 52.000-4702 AMC-LEVEL PROTEST PROGRAM

If you have complaints about this procurement, it is preferable that you first attempt to resolve those concerns with the responsible contracting officer. However, you can also protest to Headquarters, AMC. The HQ, AMC-Level Protest Program is intended to encourage interested parties to seek resolution of their concerns within AMC as an Alternative Dispute Resolution forum, rather than filing a protest with the General Accounting Office or other external forum. The AMC protest decision goal is to resolve protests within 20 working days from filing. To be timely, protests must be filed within the periods specified in FAR 33.103.

### **FAX:**

The FAX number for your bids/proposals is **(256) 240-3077** extension **2222**. This FAX line is attached to a "FAX Server" which will store your transmittal. All FAX receptions are automatically time/date stamped. Sending FAX station information is also stored with the received FAX (i.e., originating telephone number and any station information you've programmed for transmission). Instructions to fax to an extension: Dial the fax number and then press the "pause" or "pause/redial" button and then our "**2222**" extension. Most fax machines have a "pause/redial" button. Consult your fax machine user manual for specific instructions. The pauses delay the fax machine's transmission of the extension and allows the telephone system time to send the extension "beeps."

### **E-MAIL SUBMISSION:**

E-Mail bids/proposals will be directed to [acqnet@anad.army.mil](mailto:acqnet@anad.army.mil). Check with your Internet Service Provider (ISP) to verify that E-Mail attachments are allowed - some ISPs will "strip" attachments prior to transmission. Attachments to your E-Mail which require the purchase of software to view your bid/proposal will not be accepted. If you send E-Mail attachments, there must be a readily-available, royalty-free viewer available for our use in viewing and printing your submission.

### **ON-LINE SUBMISSION:**

On-line submission of bids/proposals is via our "**Vendor Response Module**." This method allows you to select a solicitation, point at file(s) on your PC, and directly transmit these file(s) to our Web Server for action. Detailed information regarding the **Vendor Response Module** is available at <http://www.procnet.anad.army.mil/>, Vendor Information, Bid Submission.

If format is other than Microsoft Word, Microsoft Excel, Microsoft Access, Microsoft PowerPoint, or Portable Document Format (PDF), a "reader" must be provided. Offeror must insure its offer, in its entirety, reaches the Directorate of Contracting, Anniston Army Depot, before the time set for bid opening or proposal closing.

Any clauses or provisions of this solicitation which mention writing, returning, or submission of offer will mean electronic submission as stated in the paragraph above.

Electronic offers must identify the solicitation and the opening/closing date, and include, as a minimum, the following:

- a. The SF33/SF1449/SF18/SF1442 filled out and signed.
- b. All applicable fill-in provisions from the solicitation must be completed.
- c. Any other information required by the solicitation.

See Federal Acquisition Regulation 14.406 or 15.207(c) for a description of the steps the Government shall take with regard to unreadable offers.

Any bid bond required by this solicitation must be submitted with offer in the above mentioned electronic format. Also, the properly completed original bid bond must be furnished to the Directorate of Contracting, Anniston Army Depot, 7 Frankford Ave, Anniston, AL 36201-4199, prior to the opening or closing of the solicitation.

Emergency badges will be issued on a case-by-case basis. Vehicle decals must be obtained for all Contractor vehicles entering ANAD. The Director of Law Enforcement (DLE) will reject any identification presented which is altered, not issued by one of the above identified agencies, or otherwise questioned regarding validity.

(2) Contractors shall submit the name of a point of contact responsible for security requirements through the Contracting Officer to the Installation Security Management Office upon notification of contract award.

(3) Ten calendar days prior to the date Contractor employee will begin work in the controlled area of ANAD (within the gates), a Personal Data Questionnaire/Privacy Act Statement (SIOAN Form 380-2) must be completed and signed for each employee. The form authorizes ANAD to conduct a local background check for any criminal record or questionable reliability. No contractors or employees will be issued a badge without a favorable local background check. SIOAN Forms 380-2 may only be submitted for persons who are current employees of the Contractor or who hold a letter of intent to hire issued by the Contractor. Forms will be submitted to the Badge and Vehicle Office, Building 367, located at the main entrance to ANAD. **NO PRE-EMPLOYMENT LOCAL BACKGROUND CHECKS WILL BE CONDUCTED BY ANNISTON ARMY DEPOT.** The prime contractor is responsible for checking with the Badge and Vehicle Office, Building 367, phone number 256 235-6820, to ensure that employees have been cleared for entrance to ANAD.

(4) Also, at least ten calendar days before the Contractor expects to begin work on the installation, prime Contractor shall submit, on company letterhead, the name, social security number, date/place of birth, and citizenship of all persons entering ANAD to perform contract work for the prime and any subcontractors. Letter shall be submitted through the Contracting Officer to the Badge and Vehicle Office.

suspension to DLE, who is the final adjudication authority of the individual's reinstatement or revocation of badge privileges.

(6) See clause entitled Identification of Contractor Employees for Contractor employees working on Anniston Army Depot.

(b) AMMUNITION LIMITED AREA. Yes ☐, No ☒ work to be performed in the Ammunition Limited Area (ALA). Contractors working within the ALA must abide by the above guidance plus the following additional requirements:

(1) The prime Contractor will be notified which persons are approved for access to the ALA. Contractor personnel who are denied access based on the local background check will have the right to appeal to the DLE. The Director's decision is considered the final action.

(2) No privately-owned vehicles (POV) are authorized in the ALA.

(3) Contractor-owned, rented, or leased vehicles which are construction-type (i.e., pickup trucks, dump trucks, etc.) may be authorized within the ALA upon being inspected and registered with ANAD. ALL VEHICLES AND PERSONS SHALL BE SEARCHED UPON ENTERING AND EXITING THE ALA.

(4) Contractor vehicles may not remain overnight within the ALA without obtaining permission from DLE and by disabling the vehicle (by removing the battery or some other method approved by DLE).

(5) No alcohol, photographic equipment, firearms, flame producing devices (to include lighters and matches), or other items prohibited by safety requirements are permitted within the ALA.

(6) All damages caused by the Contractor to security lighting, fencing, intrusion detection systems, security telephones, or any other security equipment will be repaired immediately at the Contractor's expense by the Contractor. Normal contract work will not resume until the security equipment is returned to normal.

(c) CHEMICAL LIMITED AREA. Yes ☐, No ☒ work to be performed in the Chemical Limited Area (CLA). Contractors working within the CLA are required to adhere to all of the requirements of paragraph (a) and (b) above plus the following requirements:

(1) Contractors entering the CLA on a temporary entry control roster are required to attend a safety briefing. The safety briefing, approximately 30 minutes in length, is an annual requirement. Contact DLE at 256 235-7578 to schedule this briefing.

(2) Contractors working within the CLA must be escorted by a member of the security force or an ANAD employee qualified to escort. Escorts remain with the Contractor the entire time the Contractor is within the CLA.

(3) The requirement for a security escort must be coordinated through the Contracting Officer to DLE two weeks in advance of initial required work date. The number of available escorts is limited, which may affect the amount of work area available to the Contractor each day.

(4) Escorts will be conducted with a "line of sight" being maintained at all times between the escort and the Contractor. This will limit the amount of distance one crew may spread out to perform work. Escorts may direct Contractor employees regarding the distance to travel from the escort.

(5) Contractors working within the CLA may be required to cease work and evacuate from the CLA up to six (6) times per year for exercises and/or emergencies. The duration of the cease work periods will vary, but normally they will not exceed 24 hours. These interruptions will be at no cost to the Government.

(6) Contractor work hours within the CLA will be normal ANAD duty days and duty hours. Contractors must depart the CLA 15 minutes prior to the end of ANAD's normal shift.

(d) Restricted Area (Includes ALA and CLA): **The following rules apply to contractor vehicles in the Restricted Area.**

(1) Contractors shall only enter into the restricted areas of Anniston Army Depot for the purpose of completing the official business as stipulated in the contract.

(2) Contract vehicles entering into the restricted area shall be on official contract business verified by the Contractor; shall be construction type vehicles; shall be properly registered on Anniston Army Depot; shall have a placard with the name of the contractor affixed, and the contractor shall assume liability for all vehicles used within the restricted area in support of the contract. (See paragraph (d)(4) below for definition of an acceptable document to the liability requirement.)

**(3) Contractor Employees' Privately-Owned Vehicles not included in (d)(2) above shall not be authorized in the restricted area.**

(4) The documentation to satisfy the liability language in paragraph (d)(2) would be:

a. A vehicle (i) registered (titled) in the name of the contractor or (ii) a lease, signed by the lessee/contractor and the lessor/owner. The person signing for the contractor must be a person acting with authority for the contractor.

b. In the case of a vehicle owned (titled) by the contractor, evidence of insurance combined with the terms of the contract will ensure a method of covering liability.

c. In the case of a vehicle leased by the contractor, evidence of insurance in the owner/lessor's name and the contractor must sign a statement substantially as follows: "In consideration for allowing entry and use of the described vehicle within the Restricted Area, the undersigned hereby assumes liability for all damage or injury caused by the operation of this vehicle."

(e) Hours of Work:

4<sup>th</sup> of July Holiday  
Christmas Holiday

Safety Stand-Down Day\*  
Employee Appreciation Day\*

\*Safety Stand-Down Day and Employee Appreciation Day generally occur on a Friday (8-hour day). Safety Stand-Down Day consists of either two half-days occurring at six-month intervals or one full workday per year. Employee

Appreciation Day generally occurs on a Friday (half of an 8-hour day) and is usually held in the afternoon. The Contractor's services may not be required during these periods. In such cases, the Contractor will be notified in writing by the Government. These interruptions will be at no cost to the Government.

(3) Schedule Changes. When situations warrant, the Government may change the hours of operation to adjust for certain conditions, i.e., weather conditions (extreme heat or cold). For example, during summer production, shops may begin work at 6:00 am and leave work at 3:30 pm to avoid the afternoon heat. The Contractor shall be provided as much advance written notice as possible when these situations occur and will be expected to support any schedule change provided by the Contracting Officer.

(f) Traffic: The Contractor will be required to conform to Depot regulations concerning:

(1) Designated routes

(2) Parking regulations

(3) Insurance--See clause entitled "Insurance Requirements." The Contractor will also insure that all POVs brought on the installation are fully insured for minimum amount of personal injury and personal damage liability required by Federal Acquisition Regulation 28.307-2.

(g) Highway Barricades, Warning Signs, and Parking: The Contractor shall comply with Depot Regulation ANADR 190-5 and Manual on Uniform Traffic Control Devices, ANSI D6.1, Part VI, Latest Edition. Contractors are permitted to drive their vehicles inside buildings to load and unload supplies and equipment. However, when finished loading and unloading, the Contractor should move the vehicle outside to a designated parking space.

(h) Temporary Structures: The Contractor shall comply with Corps of Engineers Manual (EM) 385-1-1.

(i) Fire Prevention and Protection: The Contractor shall comply with all fire prevention measures prescribed in the installation fire prevention and protection regulation, a copy of which is on file in the office of the Contracting Officer. A written hot work permit shall be obtained from the installation fire department for use of any heat producing devices such as blowtorches, portable furnaces, tar kettles, or gas and electric welding and cutting equipment. The Contractor shall be liable for any fire loss to Government property attributable to negligence on the part of the Contractor, including failure to comply with fire prevention measures prescribed by the terms of this contract.

(j) Utilities: Government-owned and operated utilities are adequate for the needs and use of the Contractor as well as the Government. All reasonably required amounts of water and electricity are available to the Contractor without charge.

(k) Safety and Accident Prevention: In addition to contract clause entitled "ACCIDENT PREVENTION," FAR 52.236-13, which may be incorporated by reference, the provisions of AMCR 385-100, ANADR 385-1, Engineering Manual (EM) 385-1-1, and 29 CFR 1926/1910 shall be strictly adhered to. Contractors working in the CLA will be issued protective masks by the installation in accordance with ANAD Respiratory Screening Plan. The Contractor will be responsible for the reimbursement of the cost of any protective equipment damaged due to negligence, destroyed, or lost by contracted personnel. The referenced regulations and plan are available in the Safety Office for review by contractors.

(l) Vehicle Searches: All vehicles entering, moving throughout, and exiting ANAD are subject to random searches as directed by the Depot Commander.

(m) Land Use Control: Contractors who will be required to "disturb soil" in the performance of this contract shall review and strictly adhere to the Standard Operating Procedure for Land Use Control Implementation. The SOP is available in the Directorate of Risk Management, Building 1, for review by Contractors.

(n) Cellular telephones with built-in cameras are prohibited on this installation. If a cell phone with camera is found, that cell phone is subject to confiscation, and any violation may be punishable by fine or imprisonment or both.

(o) Air Emissions: The contractor is responsible for early coordination with the Directorate of Risk Management on any action that might result in air emissions (dust, volatile substances, etc). ANAD's Title V Air Permit requires the installation to obtain construction permits for new or modified air sources. The Alabama Department of Environmental Management (ADEM) must issue a construction permit before ANAD purchases and installs any equipment which will produce air emissions. Installation and/or start-up of this equipment without the proper permit and coordination with ADEM is a violation of State and federal environmental law. The violation could result in a possible civil penalty or fine up to \$250,000 from the Federal Environmental Protection Agency. Contractors considering a new process or device, or a modification to an existing unit, must first coordinate with the Environmental Compliance Division, Directorate of Risk Management.

(p) Exercise Events: Contractors working on the installation are expected to participate in LEAN thinking, Value Stream Analysis, Rapid Improvement Events, and Six Sigma activities that may last from one to seven weeks in duration. These efforts, as defined below, are an integral part of the process improvements of ANAD on our journey toward building a LEAN manufacturing facility. The COR will provide detailed instructions when your involvement is required.

LEAN thinking is a coordinated response to today's highly competitive environment. LEAN production is aimed at the elimination of waste in every area of production including customer relations, product design, supplier networks and factory management. Its goal is to incorporate less human effort, less inventory, less time to develop products, and less space to become highly responsive to customer demand while producing top quality products in the most efficient and economical manner possible.

A Value Stream Analysis (VSA) is an event that documents the current process, the planned future process and an action plan to get to the planned future process. The VSA normally last three to four days and includes representatives from all aspects of the process.

A Rapid Improvement Event is a seven-week process that focuses on events where teams of people from a broad range of parts of the business gather to streamline a process. The first three weeks are used to select an area and topic, create the team, and plan for the event. The fourth week is the actual event where waste is identified, removed, and changes to processes made. The last three weeks are to ensure changes are continuing to be used and process is working correctly.

Six Sigma is the leading quality improvement program for a rigorous and disciplined methodology that uses data and statistical analysis to measure and improve a company's operational performance by identifying and eliminating "defects" in manufacturing and service-related processes. Six Sigma differs from traditional quality improvement programs in its focus on input variables. While traditional process improvement methods depend upon measuring outputs and establishing control plans to shield customers from organizational defects, a Six Sigma program demands that problems be addressed at the input root cause level, thereby eliminating the need for unnecessary inspection and rework processes.

(q) ANAD Network: For access to the ANAD network, send a letter stating that a National Agency Check (NAC) has been initiated and furnish a copy of the SF 85P, Questionnaire for Public Trust Positions, for review prior to issuance of an interim password. The results of the NAC investigation shall be furnished to the Security Management Office, Security Office Identifier number A077, for the final adjudication.

(End of clause) July 2006

Final Payment on the contract will be held until contractor has properly cleared with the Security Control Office, the return of all security identification badges and vehicles registration.

(End of clause) December 2003

#### 52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (SEP 2006)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show--

(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

(3) The name, address, and telephone number of the offeror;

(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;

(5) Terms of any express warranty;

(6) Price and any discount terms;

(7) "Remit to" address, if different than mailing address;

(8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(k) for those representations and certifications that the offeror shall complete electronically);

(9) Acknowledgment of Solicitation Amendments;

(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no

expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers:

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation. (1)(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to--GSA Federal Supply Service Specifications Section, Suite 8100, 470 East L'Enfant Plaza, SW, Washington, DC 20407, Telephone (202) 619-8925, Facsimile (202) 619-8978.

3) WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

#### **\*\* UNIFORM ALLOWANCE \*\***

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <<http://www.dol.gov/esa/whd/>> or through the Wage Determinations On-Line (WDOL) Web site at <<http://wdol.gov/>>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.

SURVEILLANCE PLAN  
SINGLE-PHASE RESISTANCE SEAM WELDER EMERGENCY ON-SITE MAINTENANCE  
AND PREVENTIVE MAINTENANCE SUPPORT SERVICES

The objective of this plan is to monitor contract performance as outlined in this contract. This plan will also serve as a method for describing and documenting non-performance and for recommending action to the Contracting Officer. Contract inspections may begin with the first request by the Government for emergency on-site maintenance or telephone technical support. Follow-up inspections will be made on a random basis.

1. Performance requirements to be surveilled:

- a. On-site emergency corrective maintenance during the normal period of support (described in paragraph 3.1 of section C) will be provided within forty-eight (48) hours after notification.
- b. On-site emergency corrective maintenance outside the normal period of support (described in paragraph 3.2 of section C) will be provided within seventy-two (72) hours after notification.
- c. All malfunctions and requests for service calls reported to the contractor shall be documented by the contractor as described in paragraph 3.0 of section C.
- d. Installation of any repair parts which cost in excess of \$500 shall be approved in advance by the Contracting Officer or his/her designated representative as described in paragraph 2.1 of section C.

2. Acceptable quality levels for the performance requirements are:

- a. Sec C, par 3.1 No more than 1 failure to provide on-site support within forty-eight hours during the normal period of support will be acceptable during a 12 month period.
- b. Sec C, par 3.2 No failures to provide on-site support within seventy-two hours outside the normal period of support will be acceptable during a 12 month period.
- c. Sec C, par 3.0 No more than 1 failure to provide documentation for each malfunction reported to the contractor will be acceptable during a 12 month period.
- d. Sec C, par 2.1 No failures to obtain advance approval for repair parts which cost in excess of \$500 will be acceptable during a 12 month period.

3. The COR will notify the Contracting Officer if any of the above are deficient in the performance of the contract. The Contracting Officer will take appropriate action in the event of deficiency. This does not relieve the contractor of their responsibility to perform surveillance checks and to meet contract requirements at all times during contract performance period.
